Iteration 1 Release Document

1.) We used Milestones and made a document for our Iteration 1 plan. The document can be found in our github in the same place you found this document. The milestones are located on github.

2.) The things that aren't working

- We cannot login (server side/locally it works)
- We cannot create an account
- We cannot see the jobs that have been posted
- We cannot post jobs
- We cannot request more information on jobs

3.) The Android .APK can be found here:
https://github.com/AustinCWells/HelpMeOut/tree/master/AndroidAPK

4.) A link to our website: http://107.170.79.251/HelpMeOut/

5.) Feel free to make an account but if that doesn't work, then use this test login info Username: Wilsonjc@smu.edu Password: Password4

6.) Currently the server side is acting up so please login locally. Sorry for the inconvenience but we have included a SQL dump for the database, it is called HelpMeOut_SQLFile.sql and is located in the Technical Design Document Folder. If you still have trouble with anything, please contact John Wilson at wilsonjc@smu.edu or Austin Wells at acwells@mail.smu.edu
